

7. ULUSLARARASI MUĞLA ARICILIK VE ÇAM BALI KONGRESİ

BİLDİRİLER

MAVİ: SÖZLÜ – YEŞİL: POSTER

SIRA NO	GRUP NO	İLK YAZAR	KONU
1	APİTERAPİ	Ahmet GÜNEŞ	Cultivation of buckwheat and properties of honey from buckwheat
2		Aslı Elif T. SAMANCI	Development of Cream Formulations Enriched with Honeybee (<i>Apis mellifera</i> L.) Venom and Bee Products
3		Aslı Elif T. SAMANCI	Investigation of Nutritional and Antioxidant Properties of Anatolian Bee Bread
4		Aslı ÖZKÖK	Biological Activities and Properties of Bee Products
5		Ayşe NALBANTSOY	Chemical composition and biological activities of Cypriot propolis samples collected from different regions of the island of Cyprus
6		Begüm Hazar ÇİFTÇİ	Antimicrobial Activities of Anatolian Astragalus Honey
7		Büşra EROĞLU	Anti-Inflammatory Activities of Monofloral Honey
8		Büşra UZUN	Competitiveness in Api Tourism: The Case of Turkey
9		Dila ÇAĞLAR	Cytotoxic and Apoptotic Potentials of Anatolian Bee Venom Samples Belonging to Regional Races and Ecotypes in Türkiye
10		Dilaycan ÇAM	Preparation of a new apitherapeutic product using honey and red pine (<i>Pinus brutia</i>) cones
11		Dilek KABAKCI	Investigation of the Synergistic Effect of Bee Venom and Docetaxel against the Human Prostate Cancer Cell Line PC-3: An <i>in vitro</i> Study
12		Emine SÖNMEZ	Chemical Content, Antimicrobial and Antioxidant Activity of Royal Jelly Collected from Yığılca Honey Bee Ecotype
13		G. Merve BOYRACI	A New Approach to Skin Rejuvenation Effect with Honey Bee Silk Skin Cream
14		G. Merve BOYRACI	Assessment of Ant hyaluronidase Activity of Skin Cream Containing Propolis And Royal Jelly
15		Hüseyin ŞAHİN	Comparison of Protective Effect of Aqueous and Ethanolic Extracts of Propolis against Gastric Ulceration in Rats
16		Hüseyin ŞAHİN	Effect of Various Extraction Conditions on Phenolic Compounds in Pine Honey
17		Hüseyin ŞAHİN	Revealing of the Biological Properties and the Predominant Phenolic Markers of Turkish Pine Honey
18		Meltem ARIKAN MALKOÇ	Phenolic composition and nutritional properties of bee bread obtained from Bayburt region of Turkey
19		Meltem TAŞ KÜÇÜKAYDIN	Phenolic composition and Antioxidant Activities of Cotton Honey
20		Sevgi KOLAYLI	Antioxidant, antimicrobial, antiviral and anti-diabetic properties of Anatolian Propolis
21		Türkan EKİCİ	The Effect of Perga (bee bread) on Blood Glucose Levels in Male Rats
22		Ülkü Zeynep Ü. ESERTAŞ	Antimicrobial and anti-quorum sensing activities of <i>Nigella sativa</i> (black cumin) honey
23		Ülkü Zeynep Ü. ESERTAŞ	Antimicrobial and Anti-quorum Sensing Activities of Pine Honey
24	ARI BİYOLOJİSİ, ISLAHI, TOZLAŞMA VE KOLONİ YÖNETİMİ	Ahmet GÜLER	The effects of instrumental insemination on selected and unselected breeding characteristics in honeybee (<i>Apis mellifera</i> L.)
25		Ahmet GÜLER	The effects of some supplementary feed premixes on honey bee (<i>Apis mellifera</i> L.) colony behavior, performances and Varroa mite infestation
26		Ahmet GÜLER	Bazı Anadolu bal arısı (<i>Apis mellifera</i> L.) ırk ve genotiplerinin morfolojik karakterizasyonu
27		Ahmet KUVANCI	Comparison of Honey Bees' Morphometric Measurements with Race and Ecotypes Registered in Türkiye
28		Aleksejs ZACEPINS	HIVEOPOLIS – Futuristic BeeHIVES for a Smart MetroPOLIS
29		Armands KVIESIS	Application of IoT approach in precision beekeeping
30		Güliden AYYAZ BAYKAL	Determination of Genetic Variation Using Morphological Methods in the Local Honey Bee (<i>Apis mellifera</i>) Breed in Hatay Province
31		Büşra BILDIR	The Importance of Bees in Sustainable Food Production
32		Arzu YÜCE MORKOYUNLU	Dissemination The Use Of Honey Bees in Cherry Pollination (Kocaeli/Türkiye)
33		Emre UĞURLUTEPE	The Effect of Homozygous Diploid Male Formation On Some Physiological And Behavioral Traits Of Honey Bees (<i>Apis mellifera</i> L.) Colonies
34		Gamze ERTEM	Biotechnological Approaches in Beekeeping
35		Gamze ERTEM	SMR Feature in Honey Bees
36		Hakan BAYRAK	Beekeeping and Honey Yield, Importance of Leguminosae (Legume) Family Plants
37		Halil YENİNAR	Spring Colony Population Dynamics and Wintering Parameters in Honey Bee Colonies Overwintered at Different Climate & Altitudes in the Eastern Mediterranean Region of Türkiye
38		Hasan ESE	Some performance characteristics of Western and Central Black Sea Honey Bees (<i>Apis mellifera</i> L.) obtained from their Original Fields and subjected to Selection
39		Kemal KARABAĞ	Biotechnological Studies in Honey Bee
40		Miray DAYIOĞLU	The Effect of Different Nutrient Supplementation on Avarice and Stress Protein (HSP 70) in Efe Honey Bee (<i>Apis mellifera</i> L. <i>anatolica</i>)
41		Mustafa KÖSOĞLU	Traditional Hives of Türkiye
42		Mustafa Necati MUZ	Overlooked "Far and Near Genetic Cornerstones" of Sustainable Mediterranean Beekeeping: Medibeas-Prima
43		Münir UÇAK	<i>Apis mellifera anatoliaca</i> Yiğilca Ekotipi üzerine ilk SEM morfolojisi çalışması
44		Neslihan ÖZSOY	Effects of Hygienic Behavior on Colony Health and Production in Honeybees (<i>Apis mellifera</i> L.)
45		Neslihan ÖZSOY	The Effects of Body Symmetry and Asymmetry Formations on Yield in Honey Bees
46		Neslihan ÖZSOY	Effect of the Biochemical and Histological Structure of Spermatheca on Sperm Vitality
47		Olvija KOMASILOVA	Model for selection of the apiary location
48		Servet ARSLAN	Investigation of Some Reproductive Characteristics of Queen Bees (<i>Apis mellifera</i> L.) Reared in Production Season in the Mediterranean Region
49		Songül BİR	Determination of Düzce Province Honey Biodiversity by PCR/ RFLP Method
50		Şamil Tunçay BEŞTOY	Flexible Colony Management
51		Şamil Tunçay BEŞTOY	Bee Pasture and Honey Forests
52		Şeref CİNBİRTOĞLU	The importance of plants belong to Asteraceae family for pollen source in beekeeping
53		Şule YAMAN	Determination of Suitable Beekeeping Places for Bolu Province by Weighted Overlay Analysis
54		Ulvi ÇUKUR	An Overview of Colony Collapse Disorder in Honeybee Colonies

55	ARI SAĞLIĞI, PESTİSİTLER VE ÇEVRE	Ahmet Onur GİRİŞGİN	Effects of Three Essential Oils and an Entomopathogenic Fungi Against Wax Moth Larvae in Laboratory Conditions	
56		Ali KORKMAZ	Bee Deaths in Our Country Causes and Solutions	
57		Arif BOZDEVECİ	The first <i>Paenibacillus larvae</i> Bacteriophage SV21 isolated from Turkey	
58		Aslı ÖZKIRIM	Investigation of the Complementary Role of Chitosan and Herbal Extracts Composition Against <i>Varroa destructor</i>	
59		Ayşe Ebru BORUM	Use of Prebiotics and Probiotics in Honey Bee Health	
60		Deniz ŞAHİN	The Possible Effects of Heavy Metals in Honey Bee on Human Health	
61		Ekin VAROL	Effects of Pesticide Use on Honey Bees	
62		Fatih YILMAZ	The Rational Use of Oxalic Acid Against to " <i>Varroa destructor</i> "; Regional Scale Pilot Scheme	
63		Gamze ERTEM	Neonicotinoid Pesticides and Their Effects on Honey Bees	
64		İhsan SOYTEMİZ	Bacteria for bees: Effective Bee Probiotics	
65		Dönüş GENÇER	Activities of some baculoviruses against <i>Galleria mellonella</i> (Lepidoptera: Pyralidae)	
66		Mahir Murat CENGİZ	Causes of Crystalization in Honey and New Approaches to Prevent	
67		Mustafa KÖSOĞLU	Changing Environmental Conditions and Sustainability of Beekeeping	
68		Mustafa YAMAN	Protistan Pathogens of Honeybees: Ignored Disease Factors in Turkey	
69		Neslihan ÖZSOY	Determination of the Efficiency of Different Methods Against Greater Wax Moth (<i>Galleria mellonella</i> L.) in Honeycombs	
70		Onur ÖZTÜRK	Developing a Bee Feed product that will replace pollen, which has decreased due to the climate crisis, and will increase resistance to diseases	
71		Pelin SARIKAYA	Probiotic added bee patty preparation and stabilization	
72		Sabri ÜNAL	Presence of Nosemosis, Distribution and Determination of Factors in Honeybees in Kastamonu	
73		Şengül A. KARAOĞLU	Partial purification of <i>Dicranum scoparium</i> extract/fractions, screening for antimicrobial, antioxidant and cytotoxic effects, and investigation of their potential for use against bacterial diseases of honey bees	
74		Şengül A. KARAOĞLU	Investigation of culturable GIS microbial flora in bee samples taken from sudden bee deaths in Adana and the importance of GIS flora in bee health	
75		Şeyma SUYABATMAZ	Microfloral <i>Apilactobacillus kunkeei</i> Strains: Evaluation of Therapeutic and Bioprotective Potentials on Honey Bee Bacterial Pathogens	
76		Tuğçe OLGUN	The Relationship Between Honeybees Colony Loss and Diseases	
77		ARI ÜRÜNLERİ, İŞLEMİ, MUHAFAZA VE GIDA GÜVENLİĞİ	Adnan ŞİMŞEK	Production and Certification of Reference Materials for Detection of Adulteration in Honey and Other Sugary Foods
78			Alaeddin YÖRÜK	Investigation of the Effects of Changes in Product Pattern and Habitat Fragmentation in Turkey on Honey bees in the Eastern Mediterranean Region (Adana, Hatay, Kahramanmaraş, Mersin and Osmaniye)
79			Aslı Elif T. SAMANCI	Determination of Physicochemical Properties of Naturally Obtained Bee Venoms from Anatolian Honeybee (<i>Apis mellifera anatoliaca</i>)
80			Aslı Elif T. SAMANCI	Effect of Heat Treatment on Invertase, Diastase, and HMF (Hydroxymethylfurfural) in Honey Harvested in Turkey
81	Aslı Elif T. SAMANCI		Physicochemical Properties and Authenticity of Honey Samples Obtained from the World Market	
82	Aslı ÖZKÖK		Bee Products and Palynology	
83	Aslı ÖZKÖK		Geographical and Botanical Origin of Turkish Propolis	
84	Atilla ÖZTOKMAK		Diversification of Beekeeping Products in Adiyaman: Honey Bee Venom Production	
85	Atiye DEĞİRMENÇİ		The Effect of Different Solvent and Extraction Conditions on the Biological Activity of Propolis Extracts	
86	Atiye DEĞİRMENÇİ		Spontaneous fermentation and shelf life of bee pollen substrates as a potential probiotic food	
87	Ayşe Sena ENGİN		The Effect Of Packaging Process And Storage Conditions On Sunflower Honey's Microbial Activity And Shelf Life	
88	Ayşe Sena ENGİN		The Effect of Packaging and Storage Conditions on the Shelf Life of Sunflower Honey	
89	Yusuf ATAKAN		Important Accommodation Place of Nomadic Beekeepers: Example of Denizli and Some Characteristics of Denizli Thyme Honey	
90	Banu YÜCEL		Determination of Beekeepers' Preference Toward Bee Venom Production in Turkey	
91	Cansel ÇAKIR		Honey does not contain starch-based oligosaccharides: adulteration determination of honey by starch-based sugars	
92	Kübra TUNA		Adulteration of honey to stop the formation of HMF (hydroxymethylfurfural)	
93	Fatih ÇAYAN		Chemometric Analysis of Turkish Citrus Honey in Terms of Characteristic Marker Compounds	
94	Gülsüm Merve BOYRACI		The Shelf Life And Antioxidant Activity Stability Of Propolis Extracts At Different Storage Temperatures	
95	Hellal KHAOULA		Volatile organic compounds of <i>Paliurus spina-christi</i> (Blackthorn) Honey	
96	Mehmet Emin DURU		Marker compounds of Commercially Important Turkish Monofloral Honey	
97	Mehmet ÖZTÜRK		What is β -fruktofuranosidase, and what is its role in honey adulteration?	
98	Mehmet ÖZTÜRK		What is honey α -Amylase? Can the adulteration of honey with foreign α -amylase be determined?	
99	Mehtap ER KEMAL		Survivability of lactic acid bacteria in some monofloral Turkish honeys	
100	Simge ÇİMEN		Determination of Honey Adulteration with Corn Syrups using FTIR-ATR Spectroscopy	
101	Neslihan ÖZSOY		Effects of Environmental Pollutants on Bee Products and Human Health	
102	Nevzat ARTIK		Food Safety In Bee And Apitherapy Products	
103	Nevzat ARTIK		Legislation on Bees And Bee Products in The World And Iso Tc 34/Sc19 Bees And Bee Products Committee Works	
104	Selçuk KÜÇÜKKAYDIN		Aroma Compounds of Turkish Astragalus Honey	
105	Serpil TURAL		Use of Bee bread in Food Technology: A review	
106	Sevgi KOLAYLI		Comparison of Four Different Solvent Extraction of Raw Propolis	
107	Songül KILINÇ ŞAHİN		Are Healthy Cakes Using Honey Instead of Refined Sugar Healthy?	
108	Tuğçe ATAN		Use of propolis in food industry	
109	Tuğçe ÇAPRAZLI		Good honey bee venom production techniques and standardization proposa	
110	Gökhan AYDOĞDU		The advantages and disadvantages of bee venom collection techniques	

111	ARICILIK EKONOMISI VE PAZARLAMA	Ahmet Hařim KESKİN	Improving the Efficiency of Income Increasing Initiatives in Beekeeping in Turkey by Extension
112		Emre GÖKSU	Approaches to the Licensed Warehousing System for Pine Honey Sector
113		Figen ÇUKUR	An Alternative System in Beekeeping Activities in Turkey: Mobile Beekeeping
114		Figen ÇUKUR	Geographical Indications in the Beekeeping Sector in Turkey and Possible Effects on Rural Development
115		İlknur ŞAHİN	The Contribution of Kastamonu University Forestry and Nature Tourism Specialization Coordinator to Beekeeping
116		Mehmet Ali AKKAYA	Value Added Effect of "Geographical Sign" Application in Honey Management
117		Mehmet Ali AKKAYA	Nomad Beekeeping, Accommodation Problems and Solution Proposals Through The Eyes of A Manufacturer
118		Zekeriya ONUÇ	A Research on the Factors Affecting the Honey Consumption Tendency of Ege University Students
119		Zekiye ŞENGÜL	Contract Production as a Risk Management Strategy in Beekeeping
120		Zekiye ŞENGÜL	Socio-Economic Analysis of Beekeeping Farms in Aydın, İzmir and Muğla Provinces
121	ARICILIK-ORMANCILIK İLİŞKİLERİ ÇAMP BALI ÜRETİMİ, BAL ORMANLARI	İsmet HARMAN	Beekeeping Activities and Honey Forests in Trabzon Province
122		Mehmet KORKMAZ	Effects of Forest Fires on Pine Honey Production: An evaluation of forest fires in Muğla-2021
123		Sevgin ÖZDERİN	Honey Forests Established in Muğla Province, Plant Species Used and the utilization status of Beekeepers
124		Şükran OĞUZOĞLU	Aphid species, a source of honeydew, in the forests of Isparta province
125		Şükran OĞUZOĞLU	The giant pine scale (<i>Marchalina hellenica</i>) Transplantations in Burdur Province and Its Short-Term Results
