Introduction

This example is to demonstrate the layout of an example poster for presentation at the Congress. You can change the background image in poster. Poster boards have a 2.5 cm (1 inch) frame. Paragraph and figure captions should be at least in a 24-point font (0.9 cm height) and headers at least in a 32-point font (1.2 cm height). Use a Arial throughout . The purpose of poster paper presentation is to promote informal discussion. It is a graphic display of a written manuscript. The poster presentation stands by itself as a summary of research and usually contains an overview of research objectives, experimental methods, materials, results and a discussion.

To ensure this:

- ▶ organise the poster units in an orderly manner for a logical flow from top to bottom or left to right
- ▶ use headings and colour
- ▶ test your poster by laying it out and asking a colleague to critique it
- ▶ start the poster with a clear and concise objective. Follow this with a section on experiments or research methods as appropriate and devote the main part of the poster to your results.
- ▶ make liberal use of large photos, figures, tables, diagrams, maps etc
- ▶ do not attach typewritten sheets to the poster presentation, as it is impossible to read these from a distance.

An interested individual who is not necessarily familiar with your field of expertise should be able to follow your poster.

Material and Methods

The materials and methods used in the study should be written.

Conclusions

Finish with a brief conclusion.

Presenters are encouraged to bring handout copies of their material and leave them for interested delegates to pick up and take away.

The authors would like to express appreciation for the support of the sponsors [Project number = xxxxxxx].

References

If you use any references, these should be numbered in the order in which they appear in the text. In the text, enclose reference numbers in square brackets, e.g. [1], [2], [3], ... etc. That means that references should not be listed in alphabetical order.
